Dear Dr. Henney:

I am writing to urge the FDA to immediately suspend Monsanto's license to sell rBGH until tests have adequately proven its safety. That Canada has refused to license it should tell us something.

I also writ to urge the FDA to require labeling for all genetically engineered foods.

I have become very concerned about the health of my family, friends and the American people with regards to these issues.

I would appreciate hearing your views on these matters. Thank you.

Sincerely,
